Alle Ausführungen dieser Dokumentation haben wir sorgfältig und nach bestem Wissen zusammengestellt. Wir können aber keine Verantwortung für die Benützung der vermittelten Vorschläge und Daten übernehmen. Wir behalten uns technische Änderungen ohne Vorankündigung vor.
Aktuelle Version auf www.jansen.com

Nous avons apporté le plus grand soin à l'élaboration de cette documentation. Cependant, nous déclinons toute responsabilité pour l'utilisation faite de nos propositions et de nos données.
Nous nous réservons le droit de procéder à des modifications techniques sans préavis.
Version actuelle sur www.jansen.com

All the information contained in this documentation is given to the best of our knowledge and ability. However, we decline all responsibility for the use made of these suggestions and data.
We reserve the right to effect technical modifications without prior warning.
Current version available at www.jansen.com

Merkmale

Caractéristiques

Characteristics

- Stahlsystem für Türen, Fenster und Festverglasungen
- Bautiefe 40, 50, 60 und 80 mm
- Wandstärken 2 mm
- Aufschlagende (nicht flächenbündige) Konstruktionen
- Systemlösungen für Drehtüren, Pendeltüren, Bogentüren mit oder ohne Seitenteile und Oberlichter
- Systemlösungen für Fensterkonstruktionen mit Bautiefe 50 mm
- Systemlösungen mit Beschlägesortiment für sämtliche Türkonstruktionen zur raschen und funktionssicheren Fertigung
- Stahlprofile blank oder bandverzinkt
- Geeignet für Pulver- und Nasslackbeschichtungen

- Système en acier pour portes, fenêtres et vitrages fixes
- Profondeur de montage 40, 50, 60 et 80 mm
- Épaisseurs de paroi 2 mm
- Constructions à recouvrement (non affleurantes)
- Solutions système pour portes à la française, portes battantes, portes cintrées avec ou sans parties latérales et impostes
- Solutions système pour constructions de fenêtre d'une profondeur d'encastrement de 50
- Solutions système avec choix de ferrures pour toutes les constructions de portes, permettant une réalisation rapide et sûre
- Profilés en acier brut ou galvanisé en continu
- Convient aux revêtements par poudre ou peinture liquide

Profilserie Standard

Série de profilés Standard

Profile series Standard

- Steel system for doors, windows and fixed glazing
- 40, 50, 60 und 80 mm basic depth
- Wall thicknesses 2 mm
- Pitching (non-flush-mounted) constructions
- System solutions for revolving doors, swing doors, arch doors with or without side frames and transom windows
- System solutions for window constructions with installation depth of 50 mm
- System solutions with range of fittings for all door constructions for quick and functional production
- Raw finish or pre-galvanised steel profiles
- Suitable for powder and wet paint coating

JANIssoft

JANIssoft ermöglicht die Planung, Kalkulation und Konstruktion von Jansen Systemen für Fenster, Türen und Fassaden in 2D sowie 3D. Mit der neuen Version können Planer und Verarbeiter Angebote und Bestellungen mit den entsprechenden Detailzeichnungen und Berechnungen einfach erstellen. Dank der optimierten Softwarefunktionen lässt sich der Prozess von der Arbeitsvorbereitung über die Fertigung noch effizienter gestalten.

Jansen Docu Center

Die Plattform zum effizienten Arbeiten mit Jansen Dokumentationen. Im Jansen Docu Center stehen alle Produktinformationen jederzeit digital in der aktuellsten Version zur Verfügung: von Architekten-Informationen über Bestell- und Fertigungskatalogen bis hin zu Anleitungen und Prospekten sowie Videos. Die Inhalte können einfach und schnell aufgerufen werden. Ein für den Anwender komfortables papierloses Arbeiten, das zahlreiche Vorteile bietet.

Download CAD Daten

DXF

DWG

Sie können die Zeichnungen in den Formaten DXF und/oder DWG herunterladen. Klicken Sie auf das entsprechende Icon und der Download erfolgt.

Die Hinweise «Artikelbibliothek/Türbeschläge/Fensterbeschläge» bedeuten, dass Sie mit einem Klick die gesamte Artikelbibliothek des entsprechenden Systems herunterladen (Profile, Beschläge, Glasleisten, Zubehör etc.).

JANIssoft

JANIssoft permet l'étude, le calcul et la construction de systèmes Jansen en 2D et 3D pour les fenêtres, les portes et les façades. La nouvelle version permet aux projeteurs et aux transformateurs d'établir facilement des offres et des commandes avec les plans de détail et les calculs. Des préparatifs du travail à la commande de la machine, le processus peut être coordonné de manière encore plus efficace grâce aux fonctions optimisées du logiciel.

Jansen Docu Center

La plate-forme pour travailler efficacement avec les documentations Jansen. Le Jansen Docu Center met à votre disposition les informations sur les produits, en format numérique et dans une version actualisée: des catalogues de commande et de fabrication aux instructions et prospectus, en passant par les informations destinées aux architectes et vidéos. Les contenus sont facilement et rapidement accessibles. Une manière de travailler confortable et offrant de nombreux avantages.

Télécharger fichiers DAO

DXF

DWG

Vous pouvez télécharger les dessins aux formats DXF et/ou DWG. Cliquez sur l'icône correspondante et le téléchargement s'effectuera.

Les indications «Bibliothèque des articles/Ferures de porte/Ferures de fenêtres» signifie que vous téléchargez la totalité de la bibliothèque des articles du système donné (profilés, ferrures, parcloles, accessoires etc.).

JANIssoft

JANIssoft allows Jansen systems for windows, doors and façades to be planned, calculated and designed in 2D and 3D. Using the new version, developers and fabricators can easily create quotations and orders with the corresponding detailed drawings and calculations. Thanks to optimised software functionality, the procedure from process planning to fabrication can be made even more efficient.

Jansen Docu Center

The platform for working efficiently with Jansen documentation. The latest version of all the product information is available digitally at any time in the Jansen Docu Center – from order and fabrication manuals to architect information, instructions and brochures and videos. The content can be retrieved quickly and easily. The user can work conveniently without paper, which has numerous benefits.

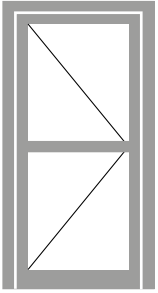

Download CAD files

DXF

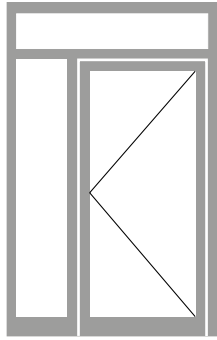

DWG

You can download the drawings in DXF and/or DWG format. Click on the relevant icon to begin the download.

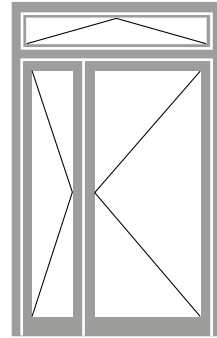

The items «Article library/Door fittings/Window fittings» means that you download the entire article library for the corresponding system with one click (profiles, fittings, glazing beads, accessories etc.).

Wir empfehlen, die Glasleisten nur auf der Raumseite anzuwenden.

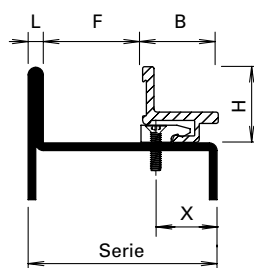

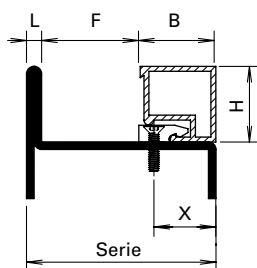

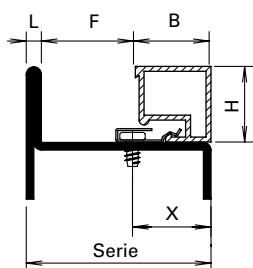

Die Masse F und x entsprechen ungefähr rahmenbündiger Glasleisten-Montage. Je nach Wandstärke der Profilstahlrohre können die Kantenradien grösser sein und aus optischen Gründen eine Veränderung des Bohrabstandes x bedingen.

Nous recommandons de n'utiliser les parclozes que du côté intérieur.

Les distances F et x correspondent à peu près au montage des parclozes à fleur du cadre. Selon l'épaisseur de la parois du tube profilé en acier, les rayons des arêtes peuvent être plus grands ce qui peut, pour des raisons d'optique, entraîner un changement de la distance de perçage x.

We recommend fitting the glazing beads on the room-side only.

Distances F and x correspond approximately to glazing beads mounted flush to the frame. Depending on the thickness of the walls of the steel sections, the radius of the edges may be larger and may require a different drilling distance x for visual effect.

Pendeltüre
Zapfenband 550.246

Porte va-et-vient
Penture à pivot 550.246

Double action door
Pivot hinge 550.246

Hinweis Türflügelmontage:

Zapfenbandbolzen im Blendrahmen ganz zurückdrehen. Türflügel oben im Bereich Zapfenbandbolzen resp. Lagerteil einführen. Türe anheben und unten auf Bodentürschliesser-Achse absenken. Zapfenbandbolzen anschliessend im Flügel-lagerteil ganz nach unten bis zum Anschlag absenken. Feinjustierung der Türflügelposition durch Stellschraube beim Flügel-lagerteil oben resp. beim Bodentürschliesser.

Note concernant le montage du vantail de porte:

Dévisser entièrement le boulon du pivot du cadre dormant. Introduire le vantail de porte en haut dans la zone du boulon du pivot et du palier. Soulever la porte et abaisser sa partie inférieure sur l'axe du ferme-porte au sol. Abaisser ensuite le boulon du pivot jusqu'en butée dans la partie palier du vantail. Ajustement de précision de la position du vantail avec une vis de réglage dans la partie palier de vantail en haut et au niveau du ferme-porte au sol.

Door leaf installation instructions:

Completely unscrew the double-action pivot bearing bolts in the outer frame. Insert the door leaf and bearing component at the top in the area of the double-action pivot bearing bolts. Lift the door and lower it onto the floor spring axis. Then lower the double-action pivot bearing bolts into the leaf bearing component as far as they will go. Fine adjustment of the door leaf position is achieved using the adjusting screw for the leaf bearing component at the top or at the floor spring.

* Vom Metallbauer herzustellen

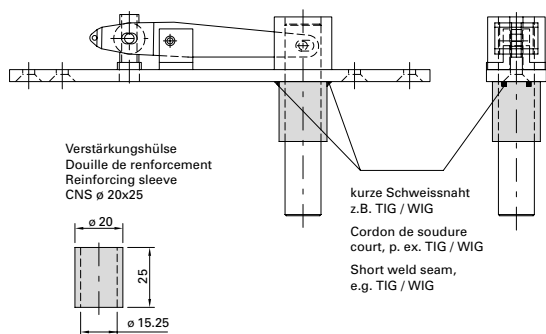

* A fabriquer par le constructeur

* To be manufactured by metal worker

Für stark beanspruchte, hochfrequentierte oder schwere Pendeltüren empfehlen wir den Zapfenbandbolzen zu verstärken (Ausführung durch Metallbauer).

Pour les portes battantes soumises à de grandes sollicitation, à fréquents passages ou lourdes, nous recommandons de renforcer le boulon du pivot (exécution par un constructeur métallique).

For heavy swing doors, or swing doors subject to heavy loading and use, we recommend reinforcing the double-action pivot bearing bolts (to be carried out by metal fabricator).

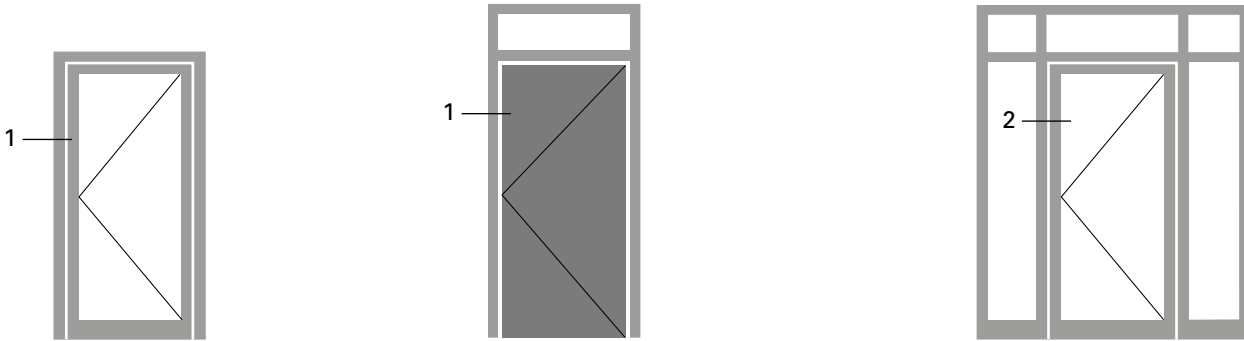

* Vom Metallbauer herzustellen

* A fabriquer par le constructeur

* To be manufactured by metal worker
